

Would you like to gain credit/exemptions for programmes that you have already completed with First Polymer Training Skillnet, or for other relevant study or work experience?

Are you interested in gaining a B Eng. Degree in Plastics, through distance learning part time education?

Would you like to attend online lectures when and where you want?

If so, working in partnership with the School of Engineering at IT Sligo and Athlone IT we have developed the right programme for you!

B Eng in Polymer Processing

A Blended Learning Level 7 Engineering Degree focused on polymer technology will be available from September 2009 from First Polymer Training (FPT) Skillnet in conjunction with Sligo Institute of Technology and Athlone Institute of Technology.

Developed specifically for FPT, applicants must ideally hold a Level 6 qualification, i.e. a National Certificate or Higher Certificate in an appropriate engineering discipline, or a relevant National Craft Certificate or Senior Trades Certificate with adequate industrial experience, or an equivalent qualification. Students can complete this programme on a part- time basis in just two years. Please contact us for more details.
